

Release Notes

Scribe Adapter for Microsoft Dynamics GP

Version	3.8.1
Release Date	May 12, 2008

Requirements

- ▶ Insight 6.3 or higher
- ▶ Microsoft Dynamics GP for SQL Server, version 7.0 or higher
- ▶ Microsoft Dynamics GP eConnect. You must have the appropriate version of eConnect for your version of Microsoft Dynamics GP

Dynamics GP 10.0. eConnect 10.0.0836.0.
Dynamics GP 9.0. eConnect 9.0.2.0 or higher
Dynamics GP 8.0. eConnect 8.0.5.0 or higher
Dynamics GP 7.5. eConnect 7.5.2.12 or higher
Dynamics GP 7.0. eConnect 7.0.5.4 or higher

- ▶ If you need help installing eConnect, please contact Microsoft or visit [Microsoft's eConnect page](#).
- ▶ A Microsoft SQL Server user account, with a user name and password, for each company database being accessed. These user accounts must have adequate privileges to allow them to perform the desired operations
- ▶ If you will be working with the samples provided with the adapter, you must have Dynamics GP 8.0 or higher and the Dynamics GP sample TWO database installed
- ▶ Some of the Dynamics GP objects require that you install additional modules to access those objects
- ▶ Microsoft .NET Framework 3.0 or higher

Before installing this adapter, uninstall any previous versions of the adapter.

Instructions for uninstalling previous versions of your adapters and installing new adapters are included in the Insight 6.3 release notes.

The Insight 6.3 installation includes all of Scribe's adapters.

This version of the adapter requires Insight 6.3.

What's new in version 3.8.1 of the adapter

New adapter installation

This new version of the adapter is designed to work with Insight 6.3 and to be compatible with Microsoft .NET Framework 3.0.

With Insight 6.3, all of Scribe's adapters are now available as part of the Insight installation. The adapters for Insight 6.3 are not available for individual download.

This version of the adapter is designed to look and function in a manner that is consistent with the previous version. The documentation is unchanged — the instructions for the previous version of the adapter are equally applicable to this newer version.

GPTIME function now returns 1/1/1900

The GPTIME function was returning 12/31/1899 for the date portion of the value. It now returns 1/1/1900 for the date portion of the value.

Known Issues

Case Number	Description
19260, 19363	ParentCustomerID field on Customer object does not do anything. This issue will be considered in a future release.
20152	SOP Get Next Number produces error if SOP40200.SOPNUMBE has (0-9) before some non-numeric characters. A hotfix is available to address this issue. Contact Scribe support to receive the hotfix. A fix for this issue is scheduled for the next release of Adapter for GP.

- | | |
|-----------------|--|
| 19374 | BR Bank Deposit Post Execute not getting Doc Num automatically. A workaround that uses target variables is available. Contact Scribe support to receive further details. A fix for this issue will be considered for a future release. |
| 19437,
20611 | Unable to integrate tax value at Order Level. A fix for this issue is scheduled for the next release of Adapter for Dynamics GP. |
| 22093 | SOP Transaction Payment Delete. This issue will be considered in a future release. |

Feedback

Scribe is very interested in hearing about your experiences with our products and documentation. We welcome your suggestions for improvement and encourage you to use the Scribe OpenMind community at <http://openmind.scribesoftware.com> to provide feedback. OpenMind also lets you see information on upcoming product releases and engage in online discussions with Scribe product management and other Scribe users. Send e-mail to openmind@scribesoftware.com to request a logon.
