

Release Notes

Scribe Adapter for Microsoft Dynamics GP

Version	3.8.3
Release Date	September 29, 2008

Requirements

- ▶ Scribe Insight 6.4 or later
- ▶ Microsoft Dynamics GP for SQL Server, version 7.0 or later
- ▶ Microsoft Dynamics GP eConnect. You must have the appropriate version of eConnect for your version of Microsoft Dynamics GP

Dynamics GP 10.0. eConnect 10.0.0836.0
Dynamics GP 9.0. eConnect 9.0.2.0 or later
Dynamics GP 8.0. eConnect 8.0.5.0 or later
Dynamics GP 7.5. eConnect 7.5.2.12 or later
Dynamics GP 7.0. eConnect 7.0.5.4 or later

If you need help installing eConnect, please contact Microsoft or visit [Microsoft's eConnect page](#).

If you are using integration templates provided by Scribe, always check to verify that your template is compatible with this updated adapter. You can verify this information by reading the release notes for your template. You can also check release information in OpenMind for up-to-date information.

What's new in version 3.8.3

Features

Version 3.8.3 of the Scribe Adapter for Microsoft Dynamics GP focuses primarily on technical alignment with Scribe Insight version 6.4.

Technical changes include adding strong naming ([http://msdn.microsoft.com/en-us/library/wd40t7ad\(VS.80\).aspx](http://msdn.microsoft.com/en-us/library/wd40t7ad(VS.80).aspx)) to the adapter.

Fixes

Ticket Number	Description
20152	SOP Get Next Number produces error if SOP40200.SOPNUMBE has (0-9) before some non-numeric characters.
22093	Error raised when deleting SOP payments.
20165	Install script for Order History Monitors and Views for Dynamics CRM has problems on case sensitive databases.
20170	Problems with Publisher for GP install script on case sensitive databases.

What's new in version 3.8.2

Features

Uninstalling the adapter

After installing the adapter, the adapter now appears in the list of installed programs in **Add or Remove Programs** in Control Panel.

Fixes

Error caused by upgrading

If you upgrade the Scribe Adapter for Microsoft Dynamics GP from version 3.8.1 to 3.8.2, you may experience errors regarding unknown functions in the Translation Workbench.

Link to Help file on Start menu fixed

The **Help** command on the **Start** menu now opens the Help file

What's new in version 3.8.1

Features

New adapter installation

This new version of the adapter is designed to work with Insight 6.3 and to be compatible with Microsoft .NET Framework 3.0.

With Insight 6.3, all of Scribe’s adapters are now available as part of the Insight installation. The adapters for Insight 6.3 are not available for individual download.

This version of the adapter is designed to look and function in a manner that is consistent with the previous version. The documentation is unchanged — the instructions for the previous version of the adapter are equally applicable to this newer version.

GPTIME function now returns 1/1/1900

The GPTIME function was returning 12/31/1899 for the date portion of the value. It now returns 1/1/1900 for the date portion of the value.

Known Issues

Case Number	Description
n/a	The samples shipped with this adapter work with v8.0 of GP and later. Furthermore, the “TWO” database is required for the samples to work.
19260, 19363	ParentCustomerID field on Customer object does not do anything. This issue is under consideration to be fixed in version 3.8.4.
19374	BR Bank Deposit Post Execute not getting Doc Num automatically. A work around that uses target variables is available. Contact Scribe support to receive further details. A fix for this issue will be considered for a future release.
19437, 20611	Unable to integrate tax value at Order Level. This issue is under consideration to be fixed in version 3.8.4.
20820, 22004	Problems utilizing SOPTYPE of '6' in dts using GP adapter. This issue is under consideration to be fixed in the next release of Adapter for Dynamics GP.
23476	GP Commit Repeating Rows. This issue will be considered in a future release.
23577	GP concurrent license count seems to be lost over time. This issue will be considered in a future release.

Feedback

Scribe is very interested in hearing about your experiences with our products and documentation. We welcome your suggestions for improvement and encourage you to use the Scribe OpenMind community at <http://openmind.scribeware.com> to provide

feedback. OpenMind also lets you see information on upcoming product releases and engage in online discussions with Scribe product management and other Scribe users. Send us an e-mail at openmind@scribesoftware.com to request a logon.
