

Release Notes

Scribe Adapter for Microsoft Dynamics NAV

Version	1.0.2
Release Date	May 12, 2008

Requirements

- ▶ Scribe Insight 6.3 or higher
- ▶ Microsoft Dynamics NAV version 5.0 *or* version 4.0 with service pack 3
- ▶ Microsoft .NET Framework 3.0 or higher

Before installing this adapter, uninstall any previous versions of the adapter.

Instructions for uninstalling previous versions of your adapters and installing new adapters are included in the Insight 6.3 release notes.

The Insight 6.3 installation includes all of Scribe's adapters.

This version of the adapter requires Insight 6.3.

What's new in version 1.0.2 of the adapter

New adapter installation

This new version of the adapter is designed to work with Insight 6.3 and to be compatible with Microsoft .NET Framework 3.0.

With Insight 6.3, all of Scribe's adapters are now available as part of the Insight installation. The adapters for Insight 6.3 are not available for individual download.

This version of the adapter is designed to look and function in a manner that is consistent with the previous version. The documentation is unchanged — the instructions for the previous version of the adapter are equally applicable to this newer version.

Added support for GUID and Dateformula data types

The adapter now supports GUID and Dateformula data types.

Known issues

Case Number	Description
D1242	BLOB data types are not currently supported. This feature will be considered for a future release.

Feedback

Scribe is very interested in hearing about your experiences with our products and documentation. We welcome your suggestions for improvement and encourage you to use the Scribe OpenMind community at <http://openmind.scribesoftware.com> to provide feedback. OpenMind also lets you see information on upcoming product releases and engage in online discussions with Scribe product management and other Scribe users. Send e-mail to openmind@scribesoftware.com to request a logon.
